Categorisation: Our "Chardonnay Brut" is a **sparkling wine made of „Leutschacher Chardonnay“ grapes – „Méthode traditionnelle“.**

Wine-growing area: The grapes used for Chardonnay Brut **grow in various vineyards** within our home village.

Climate: The climate in Leutschach is characterised by moderate rainfall, it is **warm and mostly free of fog**. The climatic conditions in this area are also influenced by cold, sloping winds from the western Koralpe Mountains, causing cool nights. These cool nights effect high temperature differences between day and night and this fact encourages fruity wine varieties.

Soil: Leutschach is located within the southwestern Styrian sea basin. Approximately 16 million years ago some 1000 meters of mighty marine sediments accumulated. Geologists describe these fine marine sediments as **„Leutschacher Schlier“**. It consists of chalky fine-sandy, mostly green-greyish **marl clay** or argillaceous schist with deposits of sand. These chalky marl soils are called "Opok".
