

PINOT NOIR Erwin Sabathi 2022

PINOT NOIR Erwin Sabathi 2022

| | | |
|---------------------------------|---|---|
| Grape variety: | Pinot Noir |  <p>Bottle label with the emblem of Patrizia & Erwin Sabathi</p> |
| Vintage: | 2022 | |
| Awards: | 95+ A LA CARTE points | |
| Alcohol content: | 13.5%vol | |
| Total acid: | 5.2g/l | |
| Residual sugar: | 1.1g/l | |
| Vinification: | harvested by hand, traditionally fermented with natural yeasts, pressed according to the traditional Burgundian method | |
| Maturation: | 36 months in small oak barrels | |
| Drinking maturity: | 10 years and longer | |
| Bottle closure: | nature cork/organic cork, sorted by hand, sealed with wax | |
| Certification: | Organic , Sustainable Austria | |
| Local orientation: | a predominantly south-facing location forming a basin with eastern and western extensions and an inclination of up to 75% (the major part more than 50% of inclination) | |
| Sea level: | 370m–485m | |
| Wine-growing region: | Southern Styria | |
| Description of the wine: | bright garnet red, seductive aroma of wild berries and rose hips stocked with slightly toasty notes, a sense of liquorice and juniper, delicate hints of forest foliage; flattering on the palate with a long finish and finely woven tannin; silky structure with a sweet finish | |
| Food recommendation: | roasted herb mushrooms on polenta slice, Korean bulgogi beef, cheese fondue, tuna steak, game birds (pheasant, goose and duck), classic Martini goose, pink roasted saddle of venison, Bouef Bourguignon | |

Categorisation: Pössnitzberg is very important for our winery. The conditions are perfect for the French grape varieties Chardonnay and Sauvignon Blanc and also boasts the best prerequisites for the Burgundian grape variety Pinot Noir. We are almost the sole winegrowers on Pössnitzberg. Our vineyards there show **soil conditions that are unique in Austria** and very similar to those that allow these wines to grow in their original homeland: extremely poor, chalky soils in combination with other special soil structures **that are also prevalent in Burgundy.**

Due to an inclination of up to 75%, this vineyard needs to be cultivated almost by hand. So it was clear for us, that we fulfilled a personal lifelong dream and planted the magnificent grape variety Pinot Noir. Pinot Noir reacts very sensitively to differences in soil type and microclimate and is therefore particularly suitable for absorbing the specific terroir. And this presents exactly our philosophy: "Our wines reflect our terroir."

On the one hand, our Pinot Noir is characterised by **pressing according to the traditional Burgundian method**, on the other hand, it impresses by **the noble emblem of Patrizia and Erwin Sabathi** on the bottle label: "On the helmet with black and golden blankets, a gold-fringed black cushion, on which two golden lions, red armored and tongued facing and together holding a silver shell."

Pinot Noir is not integrated in the Südsteiermark DAC system. According to this rule, the origin (Pössnitzberg) is not indicated on the bottle label.

Wine-growing area: Steepness and extremely chalky soils account for grand, deep terroir wines - laborious and intensive manual work provided. The single vineyards on Pössnitzberg are the most southern single vineyards in Styria and are very important for our winery. **The conditions are perfect for the French grape varieties Chardonnay and Sauvignon Blanc** and thus also **the best conditions for the Burgundian grape variety Pinot Noir.** Pinot Noir reacts very sensitively to the differences in soil types and microclimate and is therefore particularly suited to absorb in the specific terroir.

Climate: This vineyard is protected by warm winds on the one hand and the cool air stream from the western Koralpe on the other. **Significant temperature differences** result in an independent and unique aroma development.

Soil: Pössnitzberg is located on the southern part of the "West Styrian Bay" of the Styrian Basin. In former times (in the Neogene), several 1000 meter thick marine sediments have been deposited there. These deposits, also called "Steirischer Schlier", are **clayey up to fine sandy, gray-green coloured marls including plant fossils** and sandstone interstratifications. These scarce and very chalky soils, called "**Opok**" (**chalky marl**), are characterised by a humous topsoil formed by weathering, which often does not exceed a height of 20 centimeters, and firm sedimentary rocks.

„Fein und seidig im Abgang – PINOT NOIR – Ein grandioser Neugang von Patrizia und Erwin Sabathi.“ (Jakob Schillinger)

“Fine and silky on the finish – PINOT NOIR – A grandiose new wine from Patrizia and Erwin Sabathi.” (Jakob Schillinger)
