Ried Jägerberg Grauburgunder 2018

Erste STK Ried, Südsteiermark^{DAC}

Single Vineyard Jägerberg Pinot Gris 2018

Premier Cru STK, Südsteiermark^{DAC}

Grape variety:	**Pinot Gris (Grauburgunder)**
Vintage:	2018
Awards:	**94 FALSTAFF, 16 GAULT MILLAU points**
Alcohol content:	13.0%vol
Total acid:	5.3g/l
Residual suggar:	1.1g/l
Vinification:	**harvested by hand, spontaneously fermented with natural yeasts**
Maturation:	11 months in traditional, large, wooden oak casks
Drinking maturity:	10 years and longer
Bottle closure:	screw cap
Categorisation:	**Erste STK Ried (Premier Cru STK)** / Südsteiermark^{DAC}
Wine-growing area/ single vineyard :	**Single Vineyard Jägerberg**
Local orientation:	south-facing with a medium inclinationg
Sea level:	320m–380m
Wine-growing region:	**Southern Styria**
Description of the wine:	intense colour, scents of acacia blossom-honey, almond flavours; dark, smoky mineral, complex and deep - you can´t feel the concentration, it is so intimately interwoven; salty deep and continuing reverberation
Food recommendation:	tartar, carpaccio, vitello tonnato, feathered game (pheasant, quail, duck), rabbit, saddle of lamb, saddle of veal, beef roulade, ragout, bœuf stroganoff, desserts, cheese

ERSTE STK RIED

Categorisation: Our wines of the Single Vineyard Jägerberg, classified as "Erste STK Ried" (Premier Cru STK) are**typical for this region.** These wines demonstrate a strong and natural expression of their origin and have a high ageing potential. The harvest yield is limited to a maximum of 45 hectolitres. Premier Cru STK wines are allowed to be offered for sale at the earliest on 1st of September after 11 months of maturation.

Wine-growing area/ single vineyard: The Single Vineyard Jägerberg is located within the cadastral district Kranach, which belongs to the **village of Gamlitz.**

Climate: On Jägerberg the temperature differences between day and night are smaller - this fact provides **ideal conditions for Burgundy varieties.** These expressive wines reflect a complex aroma spectrum with an enormous tension.

Soil: The vineyards of Jägerberg are located in the tertiary sedimentary region of the "Gamlitz Schlier", also called "Older Schlier". ("Schlier" is a fine-sandy marl clay, in this case with deposits of sandy quartz). The existence of many fossils is a typical character for such chalky, marine sediments. The soil type is a **chalky Regosol of loamy-sandy tertiary material.**
The water retention capacity is high, the water permeability is moderate.

Intensive Farbe, Duft nach Akazienblütenhonig, Mandelaromen.

Intense colour, scents of acacia blossom-honey, almond flavours.
