Description of the wine:	scents of white peach and orange blossoms; a highbred, very bright character wine; silky and elegant at maximum intensity; strongly influenced by the barrenness of the vines and the soil; grinded stone with intense minerality; enormous saltiness creates impressions of sea air and oyster shells, calm harmonic finale
Food recommendation:	bread crumbed porcini mushrooms, morel and truffle dishes, goes well with hearty meat dishes (Mediterranean and Asian style), ossobuco, braised dishes, lamb, ragout, game dishes (deer, wild boar), St. Martin´s Day goose, goose liver

Categorisation: The Single Vineyard Pössnitzberg is predestined as a **great white wine terroir.** Due to the interaction of the soil structure and of the climatic factors this single vineyard is unique. These Chardonnay wines are very authentic. **The grapes used for "Single Vineyard Pössnitzberg Alte Reben Chardonnay" are from the oldest vineyards of our top sites on the Pössnitzberg – "Alte Reben" means old vines.** Our wines from Pössnitzberg, classified as "Große STK Ried" (Grand Cru STK), are delicately mineral, very salty on the palate and show a tight structure and high ageing potential. The harvest yield is limited to a maximum of 45 hectolitres. Grand Cru STK wines are allowed to be offered for sale at the earliest on the 1st of May after 18 months of maturation.

Wine-growing area/ single vineyard: Steepness and extremely chalky soils account for grand, deep terroir wines - laborious and intensive manual work provided. The Single Vineyard Pössnitzberg is the **most southern single vineyard in Styria** and is very important for our winery. In the fifties our grandfather Johann Sabathi recognised the potential of the site Pössnitzberg and acquired the first core of this precious vineyard. This extremely steep and rocky single vineyard benefits from partly very old vines and deep roots. Due to an inclination of 75% this vineyard needs to be cultivated almost by hand.

Climate: Warm winds coming up from Slovenian valleys meet cool air streams from the Koralpe Mountains in the west. These **extreme temperature differences** cause a spicy and multi-faceted aroma spectrum.

Soil: Pössnitzberg is located on the southern part of the "West Styrian Bay" of the Styrian Basin. In former times (in the Neogene), several 1000 meter thick marine sediments have been deposited there. These deposits, also called "Steirischer Schlier", are **clayey up to fine sandy, gray-green coloured marls including plant fossils** and sandstone interstratifications. These scarce and very chalky soils, called **"Opok" (chalky marl),** are characterised by a humous topsoil formed by weathering, which often does not exceed a height of 20 centimeters, and firm sedimentary rocks.

Ein vornehmer, ganz klarer, unverfälschter Charakterwein mit anregender Struktur, stark geprägt von der Kargheit der Reben und des Bodens – enorm mineralisch.

An elegant, very clear and genuine wine with character and an animating structure, characterised by the sparseness of the vines and by the poor soil – enormous minerality.
