

Categorisation: The Single Vineyard Pohamig is exclusively planted with the grape variety Sauvignon Blanc. Our Sauvignon Blanc wines from Pohamig, classified as "Erste STK Ried" (Premier Cru STK), are perfect to enjoy right from the beginning, but they have also a high ageing potential. The harvest yield is limited to a maximum of 45 hectolitres. Premier Cru STK wines are allowed to be offered for sale at the earliest on the 1st of September after 12 months of maturation.

Wine-growing area/ single vineyard: The single vineyard Pohamig is located within the cadastral district Pössnitz. This vineyard is exclusively cultivated by Erwin Sabathi – therefore a monopole vineyard.

Climate: Due to the tension between hot days and cool nights in combination with soft winds^{egr} arriving from the Koralpe Mountains, only Sauvignon Blanc vines grow on this single vineyard site. This wine is enormously salty, effected by the very sandy soil.

Soil: The geological subsoil consists of fine-grained sands and conglomerate interstratifications. These conglomerate interstratifications are weathered in different degrees. On the upper part of the vineyard, the soil is very sandy and light, while in the lower part it is more clayey and heavy.
