

# Ried Saffran® Chardonnay 2019

## STK Ried, Südsteiermark<sup>DAC</sup>

### Single Vineyard Saffran Chardonnay 2019

Cru STK, Südsteiermark<sup>DAC</sup>

<b>Grape variety:</b>	<b>Chardonnay</b>
<b>Vintage:</b>	2019
<b>Awards:</b>	<b>94 FALSTAFF, 95 A LA CARTE, 17 GAULT MILLAU points</b>
<b>Alcohol content:</b>	12.5%vol
<b>Total acid:</b>	6.2g/l
<b>Residual sugar:</b>	1.1g/l
<b>Vinification:</b>	<b>harvested by hand, spontaneously fermented with natural yeasts</b>
<b>Maturation:</b>	24 months in small oak barrels
<b>Drinking maturity:</b>	15 years and longer
<b>Bottle closure:</b>	nature cork/organic cork, sorted by hand
<b>Certification:</b>	<b>Organic</b> , Sustainable Austria
<b>Categorisation:</b>	<b>STK Ried (Cru STK) / Südsteiermark<sup>DAC</sup></b>
<b>Wine-growing area/ single vineyard :</b>	<b>Single Vineyard Saffran</b>
<b>Local orientation:</b>	an entirely south-facing site with an inclination from 30% up to 45%
<b>Sea level:</b>	415m–470m
<b>Wine-growing region:</b>	<b>Southern Styria</b>
<b>Description of the wine:</b>	scents of ground stone, chalky; fine smoked and roasted aromas; delicate, fruity character on the palate, smooth texture with a polish and intensity; salty minerality and sensual fruit flavours; animating to drink and accessible with a harmonious finale
<b>Food recommendation:</b>	beef-consommé, strong essences, pumpkin, porcini mushrooms, morels, truffle(-noodles), polenta, warm appetizers, shellfish and crustaceans (lobster), veal and beef, pan-fried goose liver; goes well with hearty dishes

**Categorisation:** The Single Vineyard Saffran is a **monopole vineyard of Erwin Sabathi**. This vineyard is exclusively planted with the grape variety Chardonnay. Due to the **clayier soil structure** (in comparison to the soil structure of the Single Vineyard Pössnitzberg), wines with an extremely independent character flourish there. Therefore, the Single Vineyard Saffran is especially predestined for the grape variety Chardonnay. Due to the interaction of the soil structure and of the climatic factors, this single vineyard is unique and these Chardonnay wines are very authentic. Our wine from the Single Vineyard Saffran, classified as Cru STK, is delicately mineral, enormously salty on the palate, shows a tight structure and has a high ageing potential. The harvest yield is limited to a maximum of 45 hectolitres. Cru STK wines are allowed to be offered for sale at the earliest on 1st of May after 6 months of maturation. In our case, Ried Saffran Chardonnay remains much longer in the barrels and is offered for sale at the earliest after 24 months of maturation, as well as our Grand Cru STK wines.

**Wine-growing area/ single vineyard:** A breezy climate, an entirely south-facing site and a clayey soil account for grand, deep terroir wines - laborious and intensive manual work provided. The Single Vineyard Saffran is the highest part of this slope and therefore the breeziest zone of this area.

This single vineyard has a **wine-growing tradition for centuries** and also an **enormous historical significance** for our winery. Hans Saffran (the former owner of the farmstead "Trutschelhof" and of the nowadays Single Vineyard Saffran), was in 1729 also one of the previous owners of the property Pössnitz 48, where our winery is today.

In 2014 Erwin Sabathi acquired the vineyard of the former Trutschelhof and is now in possession of the monopole vineyard "Saffran". The **name "Saffran" is used in memory of Hans Saffran** and honours a very historical winemaking tradition. This explains the naming of this single vineyard, which is not based on the spice saffron.

**Climate:** As an exposed site, especially as the highest and uppermost part of this grape slope, the Single Vineyard Saffran is **very breezy**. The slightly cooler climate avoids heat accumulations, so that temperature differences between day and night are low. These factors characterise a Chardonnay with a very strong and independent character.

**Soil:** Gray-green coloured, argillaceous, **silty marine deposits of thin sandstone interstratifications** build the geological subsoil. Striking for this very chalky soil is the humous topsoil, which is formed by weathering. This soil structure supports a high water retention capacity.

***“Eine Monopollage mit jahrhunderterlanger Weinbautradition.”***

***“A monopole vineyard with a wine-growing tradition for centuries.”***
